Launched in 2019, **Summit Journal is a free, open access trade journal** and serves as the official publication of AFIRE, the association for international real estate investors focused on commercial property in the United States.

Readers stand at the intersection of real estate, institutional investing, data science, urbanism, and economics.

Published three times per year in digital and print formats, Summit features articles from AFIRE members and guest experts. It is a core part of the association’s mission to provide an essential forum for real estate investment thought leadership through research and analysis of real estate capital markets, cross-border issues, policy, demographics, technology trends, and management topics.
As the official publication of AFIRE, the readers of Summit Journal begin with the association’s core membership, which includes more than 200 member organizations of institutional investors, investment managers, and leaders of global real estate organizations.

Through editorial collaborations, directory listings, and public calls for submissions, Summit Journal continues to expand its international readership of business leaders, academics, and experts focused on issues of real estate, financial management, climate change, and other topics at the forefront of real estate thought leadership.
